WATER SAVER bendable nozzle

A sturdy nozzle for washing and cleaning with water, whose jet is adjusted by manually bending the rubber nozzle (pressing with the thumb). The flow is closed when the nozzle is not bent, ensuring **water and time savings at work**. The nozzle is extremely resistant to damage (being stepped on, driven over by a vehicle, etc.). WATER SAVER comes in 4 versions with nozzles of different flow rates. Made of brass or stainless steel (AISI 304), nozzle of black nitrile rubber. Working pressure up to 7 bar, continuous working temperature up to +65°C (intermittently up to +100°C). Length 230 mm. Connection with female thread 3/4" BSP.

BLUE NOZZLE bendable nozzle

drawing	index	description
	AK-BWNM045	**An economical nozzle** for washing and cleaning with water, whose jet is adjusted by manually bending the rubber nozzle (pressing with the thumb). The flow is closed when the nozzle is not bent, ensuring **water and time savings at work**. The nozzle is extremely resistant to damage (being stepped on, driven over by a vehicle, etc.). Made of blue EPDM rubber and brass. Working pressure up to 10 bar, continuous working temperature up to +65°C. Flow 13.5 l/min at 2.5 bar. Length 230 mm, diameter 45 mm. Weight 0.28 kg. Connection with female thread 3/4" BSP.

Guards (grips) for cleaning and washing hoses

Guards (grips) for cleaning and washing hoses protect the hose end against excessive bending and make the hose easier to handle. Made of EPDM rubber.
