

INDUSTRIAL FITTINGS - clips, clamps, ferrules

MINI CLIP

Rolled-up edges of a MINI hose clip prevent damage of the hose. A hexagonal, slotted screw head allows screwing with the use of a flexible hose clamp driver.

MINI CLIP W1 - electro zinc-plated carbon steel.

MINI CLIP W4 - made entirely of AISI 304 steel.

W1 code (carbon steel)	min. diameter [mm]	max. diameter [mm]	tightening torque* [Nm]	max. medium pressure* [bar]
