

AKBO water guns - BLUE KING, BLUE PRINCESS

drawing	index	connection (inlet)	description
<p>BLUE KING</p>	AK-MNP11-BL-LOG	GW 1/2" BSP	<p>High-quality, highly ergonomic AKBO BLUE KING water pistol with a bail. Made of brass, trigger, bail and valve parts in stainless steel, EPDM rubber caps. EPDM seal (FDA). Features trigger lock, infinitely variable flow control, and easy and quick manual nozzle adjustment. The special flat nozzle design reduces water consumption by 16% compared to standard wash guns, without sacrificing cleaning efficiency. It also prevents water dripping even when setting the widest spray. The trigger guard holster protects against uncontrolled opening of the water jet and against damage. A trigger lock is installed at the bottom of the handle for continuous operation. Increased safety and high durability of the gun is ensured by a double sealing of the valve stem. A red arrow on the housing clearly indicates the direction of the water jet.</p> <p>Max. operating pressure: 30 bar Max. working temperature: +95°C Weight: 0.88 kg Dimensions: 190 x 145 x 50 mm Flow rate with standard nozzle: 22.2 l/min (4 bar)</p>
<p>BLUE PRINCESS</p>	AK-BMFT001-BL	GW 1/2" BSP	<p>High-quality, lightweight and economical AKBO BLUE PRINCESS water gun. Body made of brass, trigger and valve parts made of stainless steel, EPDM rubber covers, EPDM seals (FDA). Comfortably fits in the operator's hand thanks to its small size and ergonomic handle. Easy and quick manual nozzle adjustment. The special flat nozzle design reduces water consumption by 26% compared to standard wash guns without sacrificing cleaning efficiency. It also prevents water dripping. Greater safety and long life of the gun is ensured by the double stem seal. A red arrow on the housing clearly indicates the direction of the water jet.</p> <p>Max. operating pressure: 25 bar Max. working temperature: +95°C Weight: 0.463 kg Dimensions: 145 x 94 x 45 mm Flow rate with standard nozzle 19 l/min (4 bar)</p>
