

**AirTac Series**

**G**

**Shut-off valves - GZ V3V**

**Size:** 200, 300, 400  
**Connection:** GW BSP 1/8"÷ 1/2"  
**Supply pressure:** Up to 10 bar  
**Operating temp:** Up to +70°C  
**Control:** Manual

A valve used to separate the supply air from the working part of the system. When closed, the air behind the valve is vented to the atmosphere. Particularly recommended as a safeguard for maintenance work.
