Industrial chemistry - cleaning, preserving, assembly and protective agents (2)

Multi-purpose agent

WE-W44T-050

WE-W44T-400

index	capacity packaging	description
WE-W44T-050	50 ml	High-quality multi-purpose spray for servicing and maintenance work in industry, workshops, automotive, electrical applications, etc. W44T frees seized bolts, displaces moisture, eliminates squeaking and squealing, cleans dirty metal surfaces, protects and preserves tools, instruments, machines and electrical equipment.
WE-W44T-400	400 ml	

Active cleaning foam

index	capacity packaging	description
KM-GF-154	500 ml	Active cleaning foam in spray form for removing grease and dirt; ideal for cleaning air conditioning. It also removes deposits, mould and fungi. It is non-flammable. It does not stain or discolour; it is safe for most plastics. Can be used to clean computers and monitors.

Rust remover

index	capacity packaging	description
KM-RT-177	500 ml	Rust remover spray with very good penetrating properties. Ability to dissolve tarnish, rust and verdigris. Enables trouble-free dismantling of machine and equipment parts. Protects against rust. Has light lubricating properties. Frees seized nuts, bolts, valves, couplings, etc. Acid-free.

LDS leak detector

index	capacity packaging	description
WE-LDS-400	400 ml	Non-flammable spray for quickly locating leaks and cracks in tanks, gas installations and compressed air systems. Non-corrosive and non-irritating to the skin. DIN-DVGW certified (approval NG-5170AO0666).

FW leak detector

index	capacity packaging	description
KM-FW-1661	400 ml	Non-flammable spray for quickly locating leaks and cracks in tanks, gas installations and compressed air systems. Non-corrosive and non-irritating to the skin. Working temperature range: -15°C to +70°C.
