

Water hoses

TUBES 2116

Industrial hose for cold and hot water Inner layer

Reinforcement: black EPDM rubber
Polyester braid
Outer layer: red EPDM rubber
Operating temp: -40°C to +100°C
(temporarily 120°C)

Industrial water and air hose. Widely used for hot water cleaning of industrial floors and equipment. Also suitable for outdoor use. Resistant to weather, ozone and abrasion. Not resistant to oil, also not recommended for air with oil mist.

index	internal diameter [mm]	external diameter [mm]	wall thickness [mm]	working pressure [bar]	burst pressure [bar]	bend radius [mm]	mass [kg/m]	Roll length [m]

TUBES 2116 T

Industrial hose for cold and hot water Inner layer

layer: White EPDM rubber
Reinforcement: Polyester braid
Outer layer: red or blue rubber
EPDM micro-perforated
Operating temp: -40°C to +100°C

Industrial water and air hose. Widely used for hot water cleaning of industrial floors and equipment. Also suitable for outdoor use. Resistant to atmospheric conditions and abrasion. Not resistant to oil, also not recommended for air with oil mist.

TUBES 2116 DN13 hydraulic hose with 1/2" BSPT male thread (TI-ZBZ130-08-08) in galvanised steel fitted with an industrial hose clamp sleeve (TI-L-22-08) in galvanised steel.

Hose TUBES 2116T red DN13 with hydraulic end with 1/2" BSPT male thread (TI-ZBZ130-08-08) in galvanised steel fitted with an industrial hose clamp sleeve (TI-L-24-08) in galvanised steel.

Hose TUBES 2116T blue DN13 with 1/2" BSPT (NM-VT123-08) AISI 316 stainless steel industrial nozzle fitted EAR CLIP in AISI 304 stainless steel.

You will find specialised hoses for cleaning and washing in the CLEANING AND WASHING section.
