

**Teflon braided hoses - smooth-walled**

**HYPERLINE SB - continued**

HYPERLINE SB hoses are assembled with standard hydraulic end fittings using sleeves clamped with standard straight jaws. See information on end fittings at the end of the chapter.

HYPERLINE SB Teflon hoses in stainless steel braid (AF-HDSB-...) with end fittings, crimped with sleeves AF-TH-... and AF-THU-...: 1 - DN5 (3/16") with lug TI-ZBB600-02-03; 2 - DN6 (1/4") with lug TI-ZMW121-16-04-SS304; 3 - DN8 (5/16") with 45° angle lug TI-ZMW321-16-05-CN; 4 - DN10 (3/8") with 90° angle nipple TI-ZBW210-06-06-SS; 5 - DN13 (1/2") with nipple TI-ZBW110-08-08-CN; 6 - DN16 (5/8") with nipple TI-ZJW110-14-10-CN; 7 - DN19 (3/4") with nipple hygienic stainless steel AF-FXXTC-034-16-019; 8 - DN25 (1") with TI-ZBZ130-16-16 end.

Tubes International offers complete HYPERLINE SB Teflon hoses (hoses with fitted end fittings) configured and manufactured according to customer order requirements. We also offer HYPERLINE SB Teflon hoses in bulk, compression sleeves for this type of hose and hydraulic end fittings in a wide range - for customers who do the fitting of the end fittings themselves.
